IN THE CONSTRUCTION INDUSTRY.**

MAKE IT BIG

You don't have to start at the bottom, though it pays better than fast food. You can climb the ladder quickly, earning while you learn. Work your way up to foreman, or project supervisor, pulling down enough money for cars, a house, maybe a pool. That's making it in America.

CHANGING INDUSTRY

For every hard hat you see there are other positions that take using your brains. Tablets and technology have replaced rolled-up plans, lasers do the cutting, robots do some of the lifting. Crews are working smarter today, not harder. But you can still wear a tool belt, get some fresh air and build something cool.
